Shielded Waste Bins

Nuclear Shields produces shielded waste bins with different lead thicknesses and ways of opening the waste bins for various applications, such as cyclotron maintenance and standard waste disposal. Our shielded waste bins are finishing with stainless steel or epoxy coated steel for ease-of-decontamination. We provide waste bins with pedal, hinge and swivel openings. We provide waste bins with pedal, hinge and swivel openings.

Product code	Description	Lead thickness	Outside Dimensions (w x d x h)
SWB153-27L	Shielded waste bin (27 liter)	3.0 mm	370 x 370 x 450 mm
SWB153-45L	Shielded waste bin (45 liter)	3.0 mm	370 x 370 x 590 mm
SWB193	Shielded waste bin (18 liter)	3.0 mm	220 x 210 x 560 mm
S0009	Mobile shielded waste bin	12.5 mm	350 x 450 x 350 mm
SWB112	Large radioactive waste bin	5.0 mm	800 x 800 x 1000 mm
SWB141	Target waste castle (cyclotron)	100.0 mm
